Version 1

TABLE OF CONTENTS

These Binding Terms and Conditions ("Terms" or "Document") are entered into by and between Smart Impact ("Smart Impact" or "we") and the purchaser of the CLAP tokens, (hereafter referred to as the "Purchasers" or "you" collectively, and "Purchaser" or "you" individually), participating in the Token Sale process organised by Smart Impact. These Terms form the basis for the CLAP Tokens distribution and are part of the Cardashift White Paper. They prevail over all other documents issued by Smart Impact and, as from their date of entry into force, shall apply to all purchases, including outstanding orders, and are deemed to be unconditionally accepted by the Purchasers as of the conclusion of an order. Any other document (e.g. marketing materials, presentation under any format if any, etc.) is therefore given for information purpose only and shall not constitute a contract document that commits the liability of Smart Impact, which may therefore withdraw or modify such documents, without entitling the Purchaser to any compensation. By adhering to the Terms, the Purchaser expressly acknowledges having been thoroughly and comprehensively informed about the contributing process for the Project.

The Purchaser is deemed to be fully aware of all the legal norms and technical constraints relating to the acquiring, purchase, possession and use of crypto currencies and tokens based on Blockchain technologies, and to the services offered by Smart Impact.

As a consequence, the Purchaser acknowledges that he has a complete understanding of the Terms of the token distribution process.

6. RISKS

- 6.1. You understand that Digital Assets, CLAP Tokens, blockchain technology and other associated and related technologies are new and untested and outside of Smart Impact exclusive control and adverse changes in market forces or the technology, broadly construed, may prevent or compromise Smart Impact's performance under these Terms.
- 6.2. In addition to the above, you also acknowledge that you have been warned of the following risks, associated with the Website, the Cardano Blockchain, Smart Impact and other relevant technologies mentioned herein.

6.2.1. Legal risks

There is a risk that in some jurisdictions the CLAP Tokens might be considered to be a "security", or other regulated investment now or in the future, or might be considered to be some other type of regulated instrument. Smart Impact believes, but does not give representations, warranties or guarantees that CLAP Tokens are not a security or regulated or regulated investment in all jurisdictions. Smart Impact has diligently, to the best of its knowledge, already prohibited the acquiring of CLAP Tokens by individuals and entities from jurisdictions, where legal uncertainties regarding obtaining, sale and usage of cryptographic tokens are unreasonably high (see section 6 of this Term). Each Purchaser of CLAP Tokens shall bear their own legal or financial consequences of CLAP Tokens being considered a security or other regulated investment or instrument in their respective jurisdiction.

Based on Smart Impact current belief that the CLAP Tokens are not securities or other regulated when issued, Smart Impact does not intend to attempt to comply with securities or regulated investment offering laws in any jurisdiction; however, due to the continually changing regulatory environment worldwide, Smart Impact reserves the right to decide to register, obtain license, or otherwise take action to attempt to comply with any new law or regulation relating to Smart Impact and the CLAP Tokens, which could have a material adverse effect on (i) Smart Impact ability to conduct the Crowdsale and/or (ii) CLAP Token holders ability to use their CLAP Tokens.

Every Purchaser is required and bound to determine for themselves if the acquiring, receipt, trading, use, transfer or disposal of CLAP Tokens is legal in its jurisdiction, and hereby covenants and agrees not to use CLAP Tokens should their use not be legal in the relevant jurisdiction. If a Purchaser determines that the use of CLAP Tokens under these Terms is not legal in its jurisdiction, it should not use the CLAP Tokens, nor acquire them and should immediately stop using or possessing them if such case arises.

Acquiring cryptographic tokens for personal possession and exchanging them for other cryptographic tokens will most likely continue to be scrutinized by various regulatory bodies around the world, which has so far given mixed reactions and regulatory impact. The legal ability of Smart Impact to provide CLAP Tokens and the Cardano Blockchain in some jurisdictions may be eliminated by future regulation or legal actions. In the event, it turns out with a high degree certainty that CLAP Tokens are not legal in certain jurisdiction, Smart Impact would either a) cease operations and possible use of CLAP Tokens in that jurisdiction, or b) adjust CLAP Tokens and the Cardano Blockchain in a way to comply with the regulation should that be a possible and viable alternative.

6.2.2. Risks associated with Cardano Blockchain

CLAP Tokens are based on Cardano Blockchain. As such, any malfunction, unintended function or unexpected functioning of the Cardano Blockchain may cause the CLAP Tokens to malfunction or function in an unexpected or unintended manner. Ether, the native unit of the Cardano Blockchain (ADA) may itself lose value in ways similar to CLAP Tokens, and also other ways. More information about the Cardano Blockchain is available at <https://cardanofoundation.org/>.

6.2.3. Risk of unfavourable regulatory action in one or more jurisdictions

Blockchain technologies have been the subject of scrutiny by various regulatory bodies around the world, including but not limited to anti-money laundering and securities/investment regulations. The functioning of the Cardano Blockchain and associated blockchain networks and Digital Assets and CLAP Tokens could be impacted by one or more regulatory inquiries or actions, including but not limited to restrictions on the use or possession of digital tokens like CLAP Tokens, which could materially impede or limit their existence, permissibility of their use and possession, and thus causing a material reduction in their value.

6.2.4. Risk of theft and hacking

Hackers or other groups or organizations may attempt to interfere with your Third-party Wallet, the Website or the availability of CLAP Tokens and Digital Assets in any number of ways, including without limitation denial of service attacks, Sybil attacks, spoofing, smurfing, malware attacks, or consensus-based attacks. You hereby agree that XXXX shall have no liability for any such loss you incur.

6.2.5. Risk of security weaknesses in the Websites and CLAP Tokens source code or any associated software and/or infrastructure

There is a risk that the Websites and CLAP Tokens may unintentionally include weaknesses or bugs in the source code interfering with the use of or causing the loss of CLAP Tokens.

6.2.6. Risk of weaknesses or exploitable breakthroughs in the field of cryptography

Advances in cryptography, or technical advances such as the development of quantum computers, could present risks to cryptocurrencies, CLAP Tokens, the Cardano Blockchain, which could result in the theft or loss of CLAP Tokens.

6.2.7. Risk of mining attacks

As with other decentralized cryptocurrencies, Cardano Blockchain, which is used for the CLAP Tokens, is susceptible to mining attacks, including but not limited to double-spend attacks, majority mining power attacks, “selfish-mining” attacks, and race condition attacks. Any successful attacks present a risk to the CLAP Tokens, expected proper execution and sequencing of CLAP Tokens, and expected proper execution and sequencing of Cardano contract computations in general. Despite the efforts of Smart Impact and Cardano Blockchain, the risk of known or novel mining attacks exists. Mining Attacks, as described above, may also target other blockchain networks, with which the CLAP Tokens interact with and consequently the CLAP Tokens may be impacted also in that way to the extent, described above.

6.2.8. Risk of low or no liquidity

Even though there are currently online services available, which enable possibility of exchange of cryptographic tokens between themselves, and also, some of them enable exchange of cryptographic tokens for fiat money, there are no warranties and/or guarantees given that CLAP Tokens will be listed or made available for exchange for other cryptographic tokens and/or fiat money, and no guarantees are given whatsoever with the capacity (volume) of such potential exchange. It shall be explicitly cautioned, that such exchange, if any, might be subject to poorly-understood regulatory oversight, and XXXX does not give any warranties in regard to any exchange services providers. Purchasers might be exposed to fraud and failure. In any case, XXXX will not enable exchange of CLAP Tokens for other cryptographic tokens or for fiat currency. Purchaser may not at any given time be able to acquire or dispose of its CLAP Tokens due to lack of liquidity.

6.2.9. Risk of loss of value

Even though CLAP Tokens are not financial instruments, they might be awarded certain monetary value by the Purchasers and the markets. XXXX gives no warranty in respect of CLAP Token value and warns the Purchasers that value of CLAP Tokens may fluctuate and that CLAP Tokens may also lose their value entirely. There might be different reasons that would cause unfavourable fluctuations of the value of the CLAP Tokens.

6.2.10. Risk of change / Fees

There is a foreign exchange risk for the Purchaser as the exchange rate of the Digital Assets used to calculate the number of CLAP Tokens will not necessarily be the rate used at the time the Purchaser sent the Digital Assets but the rate at the time it was received by Smart Impact.

In addition, there may be additional charges and commissions incurred in connection with the conversion.

6.2.11. Risk of uninsured losses

CLAP Tokens are entirely uninsured.

6.2.12. Risk of malfunction in the Cardano Blockchain or any other blockchain

It is possible that the Cardano Blockchain, to which the CLAP Tokens are interacting with, malfunctions in an unfavourable way, including but not limited to one that results in the loss of CLAP Tokens

6.2.13. Internet transmission risks

You acknowledge that there are risks associated with using the CLAP Tokens including, but not limited to, the failure of hardware, software, and Internet connections. You acknowledge that Smart Impact shall not be responsible for any communication failures, disruptions, errors, distortions or delays you may experience when using the Websites and CLAP Tokens, howsoever caused.

6.2.14. Unanticipated risks

Cryptocurrencies and blockchains are new and untested technology. In addition to the risks set forth here, there are risks that Smart Impact cannot foresee and it is unreasonable to believe that such risks could have been foreseeable. Risks may further materialize as unanticipated, all of which could lead to loss of value and utility of CLAP Tokens.

6.2.15. Unforeseeable events

Smart Impact shall not be held liable for any loss, damage or other form of loss resulting from force majeure.

Force majeure shall be unforeseen and unexpected event that occurs independently of the will of the contracting parties and which the contracting parties could not foresee when entering into a contract.

6.2.16. Insufficient interest in the Cardashift Project, the Cardano Blockchain and CLAP Tokens

It is possible that the Cardashift Project, CLAP Tokens or the Cardano Blockchain will not be used by a large number of individuals, businesses and other organizations and that there will be limited public interest in the creation and development of its functionalities. Such a lack of interest could impact the development of the Cardano Project and result in a failure of the Cardashift Launchpad and loss of utility (and value) of CLAP Tokens.

6.2.17. Cardashift Project, CLAP Tokens, as developed, may not meet your expectations

The Cardashift Project is currently under development and may undergo significant changes before release. Your expectations regarding the form and functionality of the Cardashift Project and CLAP Tokens may not be met upon release of new Website, deployment of the Cardashift Project, Cardashift Launchpad, additional products and services for any number of reasons, including a change in the design and implementation plans and execution of the implementation of CLAP Tokens.

6.2.18. The Cardashift Project may never be completed or released

The Cardashift Blockchain may never be released and operational, or may be delayed substantially for unforeseen reasons, even though Smart Impact will make reasonable efforts to complete and deploy it.

6.2.19. Speculative participation

A participation in a crowdsale is highly speculative. Purchasing the CLAP Tokens should be considered only by participants who are able to make a long-term commitment and are aware of the risk factors involved in such a Crowdsale. The Purchasers should only purchase the CLAP Tokens if they are able to bear the risk of the entire loss of their investment and have no need for immediate liquidity in such purchase.

6.2.20. CLAP Tokens Purchasers may experience more dilution

Smart Impact is able to issue the CLAP Tokens according to the T&C. CLAP Tokens Purchasers may experience more dilution in the future.

6.2.21. Less than full amount pre-sold

There can be no assurance that a sufficient amount of CLAP Tokens will be sold during the Crowdsale. In that case, less than the maximum necessary funds will be available to Smart Impact and, consequently, its technology development and business development plans and prospects could be adversely affected.

6.2.22. Development on a best effort basis

Purchasers in the Crowdsale further confirm to understand and accept that while the individuals and entities assigned to this task, in particular Smart Impact, will make reasonable efforts to develop and complete the Cardashift Project, it is possible that such development may partially or fully fail and CLAP Tokens become useless-and/or valueless due to technical, commercial, regulatory or any other reasons

6.2.23. No Ownership, Revenue or Governance Rights

Purchaser understands and accepts that CLAP Tokens do not represent or constitute any ownership right or stake, share or security or equivalent rights nor any right to receive future revenues shares or any other form of participation or governance right in or relating to Smart Impact.

6.2.24. Risk of non-compliance with privacy regulation

As of issuing these Terms, all aspects of effects of privacy regulation are not yet clear, and privacy regulation might substantially differ in different jurisdictions across the world. Some envisaged features of the Project might not be by itself compliant with the applicable regulation and will need to be adjusted, modified or omitted.

6.3. The CLAP Tokens and the Cardashift Project are provided “as is” and “with all faults”. We and our affiliates and licensors make no representations or warranties of any kind, whether express, implied, statutory or otherwise regarding the CLAP Tokens and the Cardashift Project, including any warranty that the CLAP Tokens will be uninterrupted, error free or free of harmful components, secure or not otherwise lost or damaged. Except to the extent prohibited by law, we and our affiliates and licensors disclaim all warranties, including any implied warranties of merchantability, satisfactory quality, fitness for a particular purpose, non-infringement, or quiet enjoyment, and any warranties arising out of any course of dealing or usage of trade.

6.4. Business risks: Purchasers acknowledge that they have been warned of the business risks, associated with the Website, the Digital Assets, the CLAP Tokens, the Cardashift Project and other relevant technologies mentioned herein:

6.4.1. No assurance of profitability

Smart Impact operates at a loss and there is no assurance that the Cardashift Project will ever be profitable. No revenues have been recorded as of the date of these Terms.

6.4.2. No Personal data

Smart Impact receives, transmits and stores a large volume of personally identifiable information and other sensitive data from its customers and potential customers. There are French laws regarding privacy and the storing, sharing, use, disclosure and protection of personally identifiable information and sensitive data.

Specifically, personally identifiable information is increasingly subject to legislation and regulations to protect the privacy of personal information that is collected, processed and transmitted. Any violations of these laws and regulations may require Smart Impact to change its business practices or operational structure, address legal claims and sustain monetary penalties and/or other harms to its business.

6.4.3. Additional capital may be required

Smart Impact intends to continue to make investments to support the growth of its business and build the Cardashift Project. As such, it may require additional capital to pursue its business objectives and respond to business opportunities, challenges or unforeseen circumstances, including increasing its marketing expenditures to improve its brand awareness, developing new products or services or further improving existing products or services, enhancing its operating infrastructure and acquiring complementary businesses and technologies. Accordingly, it may need to engage in equity or debt financings in addition to the Crowdsale to secure additional funds. However, additional funds may not be available when Smart Impact needs them, on terms that are acceptable to Smart Impact, or at all. In addition, Smart Impact's agreements with other lenders may make it more difficult for it to obtain additional capital and to pursue business opportunities.

If Smart Impact raises additional funds through issuances of equity or convertible debt securities, its existing shareholders could suffer significant dilution, and any new equity securities Smart Impact issues could have rights, preferences and privileges superior to those of holders of its common stock. If Smart Impact is unable to obtain adequate financing or financing on terms satisfactory to Smart Impact, when it requires, its ability to

continue to pursue its business objectives and to respond to business opportunities, challenges or unforeseen circumstances could be significantly limited, and its business, operating results, financial conditions and prospects could be adversely affected.

6.4.4. Security breaches of customers' confidential information

Smart Impact stores customers' personal information and other sensitive data. Any accidental or wilful security breaches or other unauthorized access could cause the theft and criminal use of this data. Security breaches or unauthorized access to confidential information could also expose Smart Impact to liability related to the loss of the information, time-consuming and expensive litigation and negative publicity. If security measures are breached because of third-party action, employee error, malfeasance or otherwise, or if design flaws in Smart Impact's software are exposed and exploited, and, as a result, a third party obtains unauthorized access to any of its customers' data, Smart Impact's relationships with its customers will be severely damaged, and Smart Impact could incur significant liability.

Because techniques used to obtain unauthorized access or to sabotage systems change frequently and are generally not recognized until they are launched against a target, Smart Impact may be unable to anticipate these techniques or to implement adequate preventative measures which are costly to implement. Any security breach, whether actual or perceived, may cause the Purchasers to lose confidence in the effectiveness of its data security measures and would harm its reputation and Smart Impact may lose Purchasers.

6.4.5. Protection of the intellectual property rights

Smart Impact's ability to service its Purchasers will depend, in part, upon its intellectual property. It primarily relies on copyright, trade secret and trademark laws, trade secret protection and confidentiality or license agreements with its employees, customers and others to protect its intellectual property rights. However, the steps it takes to protect its intellectual property rights may be inadequate. Smart Impact currently does not have any issued patents.

In order to protect its intellectual property rights, Smart Impact may be required to spend significant resources to monitor and protect these rights. Litigation brought to protect and enforce its intellectual property rights could be costly, time-consuming and distracting to management and could result in the impairment or loss of portions of its intellectual property. Furthermore, its efforts to enforce its intellectual property rights may be met with defences, counterclaims and countersuits attacking the validity and enforceability of its intellectual property rights. Smart Impact's failure to secure, protect and enforce its intellectual property rights could seriously harm its brand and adversely affect its business.

6.4.6. Success of marketing efforts

Smart Impact believes that an important component of its growth will be continued market penetration through its direct marketing channel. To achieve this growth, Smart Impact anticipates relying heavily on marketing and advertising to increase the visibility of the Cardashift Project brand with potential Purchasers. The goal of this marketing and advertising is to increase the strength, recognition and trust in the Cardashift Project brand, drive more unique visitors to submit applications on the Cardashift Launchpad. If Smart Impact is unable to recover its marketing costs through an increase in the number of users of the Cardashift Launchpad, or if it discontinues its broad marketing campaigns, it could have a material adverse effect on its growth, results of operations and financial condition.

6.4.7. Quality of the team

Smart Impact believes its success has depended, and continues to depend, on the efforts and talents of its executives and employees. Its future success depends on its continuing ability to attract, develop, motivate and retain highly qualified and skilled employees. Qualified individuals are in high demand, and Smart Impact may incur significant costs to attract and retain them. In addition, the loss of any of its senior management or key employees could materially adversely affect its ability to execute its business plan and strategy, and it may not be able to find adequate replacements on a timely basis, or at all.

6.4.8. Litigation may adversely affect Smart Impact's business and financial condition

Smart Impact's business is subject to the risk of litigation by employees, customers, consumers, suppliers, competitors, shareholders, government agencies, or others through private actions, class actions, administrative proceedings, regulatory actions or other litigation. The outcome of litigation, particularly class action lawsuits, regulatory actions and intellectual property claims, is difficult to assess or quantify. Plaintiffs in these types of lawsuits may seek recovery of large or indeterminate amounts, and the magnitude of the potential loss relating to these lawsuits may remain unknown for substantial periods of time. In addition, certain of these lawsuits, if decided adversely to Smart Impact or settled by Smart Impact, may result in liability material to its financial statements as a whole or may negatively affect its operating results if changes to its business operations are required.

The cost to defend future litigation may be significant. There also may be adverse publicity associated with litigation that could negatively affect customer perception of its business, regardless of whether the allegations are valid or whether Smart Impact is ultimately found liable. As a result, litigation may adversely affect its business and financial condition.

6.4.9. Industry Risk: Limited operating history in an evolving industry,

Smart Impact has no operating history in an evolving industry that may not develop as expected. Assessing its business and future prospects is challenging in light of the risks and difficulties it may encounter. These risks and difficulties include its ability to:

- navigate complex and evolving regulatory and competitive environments;
- increase the number of Purchasers;
- Successfully maintain and evolve our internal controls to manage compliance with an evolving and complex regulatory environment;
- Successfully develop and deploy new products;
- Successfully maintain its funding strategy;
- Favourably compete with other companies that are currently in, or may in the future enter, the core Blockchain technology business;
- Successfully navigate economic conditions and fluctuations in the Blockchain core technology market;
- Effectively manage the growth of its business;
- Successfully expand its business;
- continue to revise its Cardashift Launchpad;
- continue to develop, maintain and scale the Cardashift Project, Cardashift Launchpad and other products and services, if any;
- Effectively use limited personnel and technology resources;
- Effectively maintain and scale its financial and risk management controls and procedures;
- maintain the security of the Cardano Project and the confidentiality of the information provided and utilized across above said Cardano Project; and
- attract, integrate and retain an appropriate number of qualified employees.

6.4.10. Changes in legislation

There can be no assurance that income tax laws and laws relating to the industry in which Smart Impact operates will not be changed in a manner which adversely affects Smart Impact's business plan and the Cardashift Project.

6.4.11. Risks incurred by the use of DEX

- Projects developed through the use of a DEX could be artificially developed by bots to create hype before coming down to a more reasonable price.
- Many of these projects are not very innovative and are destined to disappear, they do not bring much to the table compared to existing solutions. Worse, some of them simply want to take advantage of the trend to disappear with the money once the funds have been raised (Rug Pulls).

- Launchpad tokens can lose all their value in the event where the projects launched are not up to scratch or if they unfortunately run into scammers.
- Telegram channels are riddled with scammers, so much so that all IDO platforms harp on hundreds of times a day that their "admins will never send a private message first", and are forced to mute their Telegram groups during IDO.

7. Eligibility

7.1. The Website, the Cardashift Project and CLAP Tokens are not offered for use to natural and legal persons, who are "residents" (as defined in applicable local regulation) or have their seat of incorporation (in each case "Restricted Persons") in the following countries: USA, China (Mainland), AF, BA, ET, GY, IR, IQ, KP, LA, PK, LK, SY, TT, TN, UG, VU, YE, RU, TR, CY, MT, VG, KY, BM, GG, JE and IM ("Restricted Countries").

7.3. Smart Impact reserves the right to decide in its own discretion to adopt reasonable organizational and technical measures to assure that the Websites and CLAP Tokens are not available to Restricted Persons. Due to the CLAP Tokens being offered on the Internet (world-wide web), Smart Impact and Purchasers understand that there is a possibility that there might be a certain "flow back" of CLAP Tokens to Restricted Persons. Smart Impact consequently explicitly prohibits Restricted Persons from using CLAP Tokens. Smart Impact shall not be held liable for any legal or monetary consequence arising of such use. Such persons using CLAP Tokens despite the prohibition shall on first request indemnify and hold harmless Smart Impact from any legal or monetary consequence arising of their breach of the terms as described in this paragraph 7.3. Restricted Persons shall immediately stop using CLAP Tokens and leave the Website.

7.5.9. are not making contribution with any ADA that directly or indirectly resulted from, or was previously used for any “money laundering” activity of any kind, and on request by Smart Impact you hereby agree to provide to Smart Impact any available information you have necessary to prove this statement to Smart Impact or any required exchange or governmental entity;

7.5.10. understand that the CLAP Tokens would confer only the right to benefit from the Cardashift Launchpad within the Cardashift Project, as set out in paragraph 4, and confer no other rights of any form with respect to the Cardashift Project or Smart Impact, such as voting in its annual general meeting, right to dividends or other distribution or other financial or legal rights;

7.5.11. are acquiring CLAP Tokens to access/run the Cardashift Launchpad and to support its development, testing, deployment and operation; and that you are not acquiring CLAP Tokens for any other uses or purposes, including, but not limited to, any speculative investment or other financial purposes; and

7.5.12. your acquiring and usage of CLAP Tokens complies with applicable law and regulation in your jurisdiction, including, but not limited to, (i) legal capacity and any other threshold requirements in your jurisdiction for acquiring the Tokens, using the CLAP Tokens in the XXXX Blockchain, and entering into contracts with us, (ii) any foreign exchange or regulatory restrictions applicable for acquiring and holding tokens, and (iii) any governmental or other consents that may need to be obtained.

8. Financial regulation and cooperation with legal authorities and authorized financial institutions and regulators

8.1. Smart Impact believes that the CLAP Tokens are utility token pursuant to Article L.552-2 of the French Monetary and Financial Code (i.e. an intangible asset representing, in digital form, one or

more rights that can be issued, recorded, stored or transferred by means of a shared electronic recording device that allows the owner of the asset to be identified, directly or indirectly).

- 8.2.** Smart Impact is closely following changes to legislation in the most relevant jurisdictions in the world where CLAP Tokens could be qualified differently or unregulated. Consequently, Smart Impact intends to act accordingly, if regulatory changes impact operations of CLAP Tokens and the Cardashift Project. Smart Impact is not a financial institution and is currently not under supervision of any financial supervisory authority. Smart Impact does not provide any licensed financial services, such as investment services, capital raising, fund management or investment advice. Smart Impact believes (but cannot warrant) that the CLAP Token distribution is not a public offering, a regulated “security” or an equity or debt instrument.
- 8.3.** CLAP Token does not represent and shall not constitute an investment in a security or a financial instrument within the meaning of EUR Directive 2014/65/EU of the European Parliament and of the Council of 15 May 2014 relating to markets in financial instruments.
- 8.4.** CLAP Token is not an electronic currency within the meaning of EU Directive 2009.110/EC of the European Parliament and of the Council of 16 September 2009 relating to access to and pursuit of the business of electronic money institutions.
- 8.5.** CLAP Token is not a payment service within the meaning of EU Directive 2007/64/EC of the European Parliament and of the Council of 13 November 2007 relating to payment services in the internal market, nor within the meaning of EU Directive N° 2015/2366 of the European Parliament and of the Council of 25 November 2015 relating to payment service 2 (DSP 2)
- 8.6.** According to the foregoing, any Purchaser subject to these conditions is aware that he cannot expect judicial protection from the respective local regulator for damage or loss that might arise from the risks described in Article 6.
 - 8.6.1.** This Agreement or any other Agreement, produced and signed by Smart Impact, as well as the Website, and any of their content does not constitute an offer or solicitation to sell shares or securities.
 - 8.6.2.** None of the information or analyses presented are intended to form the basis for any investment decision, and no specific recommendations are intended, and Smart Impact services and the Website are not, do not offer and shall not be construed as investment, securities or financial products.
 - 8.6.3.** Smart Impact intends to use best efforts to cooperate with any governmental legal authority or regulator or supervisory authority of any country, and also with all authorized financial institutions.

9. Liability

- 9.1.** You hereby agree to the fullest extent permitted by law (for yourself, your successors and assigns) that Smart Impact and their affiliates and their respective officers, directors, advisors employees or agents will in regard to the Website, the Cardashift Project and offer, distribution and use by you of CLAP Tokens shall not be liable to you or anyone else for any damages of any kind, including, but not limited to, direct, consequential, incidental, special or indirect damages (including but not limited to loss of revenues, loss of profits, trading losses or damages that result from the offer, sale or use or loss of use of the CLAP Tokens, the Website, or the Cardano Blockchain) or damages caused by data breach, even if Smart Impact has been advised of the possibility of such damages or losses, including, without limitation, from the use or attempted use of CLAP Tokens, the Website or the Cardashift Project. In no event will the aggregate liability of Smart Impact and its affiliates, either in contract, warranty, tort or other theory, exceed the amount received by contributions.
- 9.2.** Further, neither we nor any of our affiliates or licensors or ambassador will be responsible for any compensation, reimbursement, or damages you or your successors and assigns may have arising in

connection with: (a) your inability to use the Website, the Cardano Blockchain or CLAP Tokens, including without limitation as a result of any termination or suspension of the Cardano Blockchain or these Terms, including as a result of power outages, maintenance, defects, system failures or other interruptions; (b) the cost of procurement of substitute goods or services; (c) any investments, expenditures, or commitments by you in connection with these Terms or your use of or access to the Website, the Cardano Blockchain and CLAP Tokens; or (d) any unauthorized access to, alteration of, or the deletion, destruction, damage, loss or failure to store any data, including records, private key or other credentials, associated with to the Website, the Cardano Blockchain and CLAP Tokens.

- 9.3.** You (for yourself, your successors and assigns) hereby waive your right to demand the return of any Digital Assets you exchanged with us for the purpose of acquiring CLAP Tokens, including, without limitation, any demand for specific performance.
- 9.4.** You will defend, indemnify, and hold harmless Smart Impact, our affiliates, licensors or ambassador, if any and each of their respective employees, officers, directors, advisors and representatives (collectively XXXX Group) from and against any claims, damages, losses, liabilities, costs, and expenses (including reasonable attorney fees) arising out of or relating to any third-party claim concerning these Terms or your use of the Website, the Cardano Blockchain and CLAP Tokens contrary to these Terms. If Smart Impact Group is obligated to respond to a third-party subpoena or other compulsory legal order or process described above, you will also reimburse us for reasonable attorney fees, as well as our employees' and contractors' time and materials spent responding to the third-party subpoena or other compulsory legal order or process at reasonable hourly rates.
- 9.5.** The information, software and products included in or available through the Website and the Cardano Blockchain may include inaccuracies or typographical errors. Changes are periodically added to the information herein. Smart Impact and/or its suppliers may make improvements and/or changes to the Website and the Cardano Blockchain at any time. Smart Impact makes no representations about the suitability, reliability, availability, timeliness, and accuracy of the Website, the Cardano Blockchain, CLAP Tokens, information, software, products, services and related graphics contained on the Website for any purpose. To the maximum extent permitted by applicable law, the Website, the Cardano Blockchain and CLAP Tokens, all such information, software, products and related graphics are provided "as is" without warranty or condition of any kind. Smart Impact hereby disclaims all warranties and conditions with regard to the Website, the Cardano Blockchain, CLAP Tokens, information, software, products, services and related graphics, including all implied warranties or conditions of merchantability, fitness for a particular purpose, title and non-infringement.
- 9.6.** Honourability: Smart Impact believes that transparency, honourability and honesty of the team members is a key criterion for its success. In that respect, Smart Impact acknowledges that all the founders, shareholders and team members of Smart Impact benefit from the appropriate experience, reputation and honourability to conduct the Project. In addition, Smart Impact undertakes that its senior managers have the necessary integrity to ensure a sound and prudent management of Smart Impact. In that respect, although Smart Impact is not a credit institution or an investment services provider, Smart Impact undertakes that its senior managers have not been convicted of any of the crimes or offenses listed under article L.500-1-II of the (French) Monetary and Financial Code.
- 9.7.** In addition, Smart Impact may not be held liable for any of the following:
- 9.7.1.** Use of Smart Impact services that are not compliant with the terms of the contract;
- 9.7.2.** Non-performance, failure, malfunction or unavailability of the services from the Cardano Blockchain due to a third party, the purchaser or user of the Cardano Blockchain, a third-party product, or the Purchaser's breach of its obligations;
- 9.7.3.** Indirect damages such as business loss or disturbance, loss of orders, operating loss, infringement of the trade mark, loss of profits or Purchasers (e.g. improper disclosure of confidential information concerning said Purchaser due to failure or piracy of the system, third-party proceedings against the Purchaser, etc.);

- 9.7.4.** Loss, disclosure or unlawful or fraudulent use of Purchaser sign-on by the Purchaser or third parties;
- 9.7.5.** Suspension of access or temporary or permanent suspension of the CLAP Tokens or of the Smart Impact Crowdsale Website (in particular, arising from a request issued by an appropriate administrative or judicial authority, or notification received from a third-party);
- 9.7.6.** Mismatch between the CLAP Tokens functionalities and services and the Purchaser's needs (in particular, with regard to the sensitivity of the relevant data);
- 9.7.7.** Security incidents relating to use of the Internet, concerning in particular the loss, alteration, destruction, disclosure or unauthorized access to the Purchaser's data or details on or via the Internet.
- 9.8.** Because the CLAP Tokens is based on the Cardano Blockchain, any malfunction, breakdown or abandonment of the Cardano Blockchain may have a material adverse effect on the CLAP Tokens. Moreover, advances in cryptography, or technical advances such as the development of quantum computing, could present risks to CLAP Tokens and the Cardano Blockchain, including the utility of CLAP Tokens, by rendering ineffective the cryptographic consensus mechanism that underpins the Cardano Blockchain; Smart Impact reserves the right to substitute in the future an alternative network to replace the Cardano Blockchain if needed or if useful for the Cardashift Project.
- 9.9.** As with other decentralized cryptographic tokens based on the Cardano Blockchain, CLAP Tokens are susceptible to attacks by miner in the course of validating CLAP Tokens transactions on the Cardano Blockchain or any other public Blockchain on which the Cardano Blockchain may operate, including, but not limited, to double-spend attacks, majority mining power attacks, and selfish-mining attacks. Any successful attacks present a risk to the Cardano Blockchain, including, but not limited to, accurate execution and recording of transactions involving CLAP Tokens.
- 9.10.** Hackers or other malicious groups or organizations may attempt to interfere with the Cardano Blockchain or the CLAP Tokens in a variety of ways, including, but not limited to, malware attacks, denial of service attacks, consensus-based attacks, smurfing and spoofing. Furthermore, because the Cardano Blockchain is based on an open-source software, there is a risk that a third party or a member of the Cardano team may intentionally or unintentionally introduce weakness into the core infrastructure of the Cardano Blockchain, which could negatively affect the Cardano Blockchain and the CLAP Tokens.
- 9.11.** You warrant to Smart Impact that you will not use the Website, the Cardashift Launchpad or the CLAP Tokens for any purpose that is unlawful or prohibited by these Terms. You may not use the Cardashift Launchpad or CLAP Tokens in any manner that could damage, disable, overburden, or impair the Cardashift Launchpad, CLAP Tokens or the Website.
- 9.12.** Smart Impact reserves the right to rectify any clerical error or omission in the contract documents binding it to the Purchasers without entitling the Purchaser to any compensation.

10. Liability of the CLAP Token's Purchaser

- 10.1.** The Purchaser acknowledges that he is solely liable for storage and use of the purchased CLAP Tokens under normal conditions of use, and in accordance both with current legislation at the time and place of use and with his profession's code of conduct, which he declares he is fully aware of.
- 10.2.** Accordingly, he shall be deemed personally liable for any damaging consequences arising from the abnormal, noncompliant or unforeseeable storage, transfer or use of the CLAP Tokens.
- 10.3.** The Purchaser also acknowledges he has received all the necessary details from Smart Impact on the information and data he has communicated and is therefore solely liable for the ordered CLAP Tokens' suitability in terms of their specific planned use.
